Purpose

Does your Church Really Need a Security Team:
The "Why" and "How" of Church Security

Throughout the Old Testament God depended on his warriors to fight the battles and protect the people (Neh. 4:9) Look at the headlines. There are numerous church incursions every year. I believe that God expects us to be prepared and protect ourselves.

To insure total security for your congregation you need to have 100% coverage for 100% of the time. A thief or intruder can find an opening just one percent of the time and be successful in disrupting services, causing injury, or stealing property from the church or congregants. The pressure is always on the security system/team of your church. You must constantly look at your church through the eyes of an intruder/criminal.
